Chief Hospital Corpsman Peter M. David, assigned to Underwater Construction Team One (UCT ONE), shakes off the sediment on an American flag while surveying the wreckage of USNS General Hoyt S. Vandenberg (T-AGM-10) during diver training aboard the U.S. Army large landing craft USAV Matamoros (LCU-2026). Diver training is a two-week, joint training evolution designed to reinforce standard operating procedures, qualify personnel, maintain proficiency, and evaluate dive protocol during scuba, surface supplied and recompression chamber operations. (Photo by Mass Communication Specialist 2nd Class Nicholas S. Tenorio)

The Military Sealift Command hospital ship USNS Mercy (T-AH 19) transits the Columbia River after completing Mercy Exercise 02-15. The quarterly exercise is designed to train and integrate medical and other core Navy personnel to operate the ship as a Medical Treatment Facility. Mercy is entering a scheduled maintenance period.
